

# Leadership 2.0 Course Series

## Professional Development Courses For Administrators

**W**restling with issues related to educational technology in your school? Wondering how you provide the necessary leadership to see that technology is used effectively in the classroom and efficiently in the central office? This series of courses, developed around the National Educational Technology Standards for Administrators, is designed to help school administrators explore the issues related to educational technology and their important role as the educational leader of the school.

Become a more technologically aware administrator who:

-  **works with faculty to integrate technology effectively & efficiently in the classroom**
-  **uses technology to support his own professional learning and productivity**
-  **uses technology to collect & analyze data to support school improvement efforts**

## Course Titles, Descriptions & Dates

### **AKTECH107.105 Principal 2.0: The Big Picture** –10 hrs/5 wks

Digital natives, social networking, the flat world: what do these things mean for 21st century educators? This course will introduce these concepts in the context of instructional leadership. Participants will learn strategies for assessing their own progress and that of their schools. They will develop methods for bringing these concepts to their faculties.

**Facilitator:** Karen Richardson

**Date/Time:** Mon, 2/21/11- Sun, 3/27/11 - Any/Online

### **AKTECH108.103 Principal 2.0: Harnessing the Tools for Professional Learning** –10 hrs/5 wks

One of the technology standards for administrators that often gets overlooked is that of professional productivity. Web-based tools can support this productivity as they promote effective and efficient use of information. Participants will be introduced to several different tools including weblogs, wikis, and aggregators and learn how to use them to support both their own work and to support collaboration amongst administrators, faculty, and staff.

**Facilitator:** Chris O'Neal

**Date/Time:** Mon, 4/4/11- Sun, 5/8/11 - Any/Online

### **AKTECH109.102 Principal 2.0: Encouraging & Evaluating Instructional Technology Use** –10 hrs/5 wks

As the instructional leader of the school, the principal plays an essential role in the use of instructional technology. Participants will be introduced to different models related to the integration of technology. They will use these models to assess classroom uses of technology and learn strategies for encouraging that use.

**Facilitator:** Karen Richardson

**Date/Time:** Mon, 5/23/11- Sun, 6/26/11 - Any/Online

### **AKTECH110.102 Principal 2.0: More Than Counting: Using Data Effectively** –10 hrs/5 wks

Data is about much more than stanines and percentiles. It's about making wise decisions when we're faced with tough calls. In order to maximize funds, time, and teacher's efforts, it's important that principals understand the big picture of data driven decision making. Participants will look at data from the student achievement standpoint, but from the big picture of leading school culture as well.

**Facilitator:** Chris O'Neal

**Date/Time:** Mon, 7/11/11 to Sun, 8/14/11 - Any/Online

### **AKTECH111.102 Principal 2.0: Professional Development that Gets Results** –10 hrs/5 wks

Delivering effective professional development is more than just designing an interesting workshop. Participants in this workshop will learn how to apply the National Staff Development Standards to design and deliver professional development.

**Facilitator:** Karen Richardson

**Date/Time:** Mon, 9/19/11- Sun, 10/23/11 - Any/Online

# Leadership 2.0 Course Series

## Professional Development Courses For Administrators

"Signing up for this class has greatly enhanced my experience and knowledge base to encourage teachers to actively infuse technology into everyday instruction. As an aspiring administrator, my interest was centered around how to enhance current instructional practices to foster a higher level of participation and achievement by the students, without overhauling the entire instructional program. My most immediately and logical choice was to infuse the use of more technology into the classroom by teachers. This course helped me develop those strategies of implementation! The instructor engaged the class in an investigative quest to tease out the skills and methods necessary to develop a plan of implementation and sustainability to actively engage a reluctant and sometimes resistant staff. A school leader can truly enhance the instructional program for the growing and diverse needs of students through a targeted effort and resolute design. I highly recommend this course to any school leader at any level who plans or wants to plan, implements, and evaluates the overall instructional program."

-- Mr. Casey M. Roberts, M.Ed.  
Hampton City Schools  
Kecoughtan High School

### Course Cost

Save  
\$100

Regular Course Price - \$119 per course  
Total - \$595 for all 5 courses

**Package Price - \$495 for all 5 courses**

**Refund Policy:** The learner must drop the series a week prior to start date of the first course (February 14, 2011) of the series to receive a refund for the full price (100%) paid for the series. NO REFUND request will be granted after this date. The learner must submit a refund request to [info@anytimeknowledge.org](mailto:info@anytimeknowledge.org) or 866-559-2353 to receive a refund.

### Registration Information

To register for Leadership 2.0 Course Series go to [www.whro.org/cii/ero\\_login.asp](http://www.whro.org/cii/ero_login.asp)

1. Click "browse the public catalog" and accept Terms and Conditions.
2. Click on the Course Catalog Tab.
3. To find the course series type "Leadership 2.0 Course Series" in the Course Code or Title section.
4. Once the course series opens click on the Request Enrollment icon. You will be asked what type of credit you want. You will need to know if you are a C.I.I. Member, C.I.I. Service Participant or a Non-Member. Go to [www.whro.org/cii/roster.asp](http://www.whro.org/cii/roster.asp) to see if your school is or school division is listed.
5. Next you will create a profile. If you already have an account click on the "I have a profile" link and log in. If you do not have a profile follow these steps to create one:
  - \*User ID: birth date (MMDD) + last 4 digits of SSN - (example-12141234)
  - \*PIN: last four digits of home telephone (or cell) - (example - 1234)
  - \*Tip/Note: When trying to select your location, the listing is of division/school. Type in the first letter of your division, and then scroll down to the appropriate school within your division. Private Schools are listed as Independent for the division.
6. Please pay within the online registration system through PayPal (allows you to pay by Credit Card as well). Once you have registered for the course, a PayPal button will appear. The cost of the series is \$495.

If you have any problems or questions about your registration please contact us at:
