

SAVE THE BAY

Hello, our names are Amy, Megan, and Sara. We are students at the Advanced Technology Center. We are seeking donations to help our class go to the Port Isobel Island Study Center, between the Tangier Sound and the Chesapeake Bay. This trip will provide us with an interesting look at the history of this watermen's village and the Bay. We will learn about conservation, ecology, and using alternative forms of energy. We are the future, and we will make sure that the Earth is saved.
