## C.I.I. Technology Integration Certificates

As part of the NCLB Ed Tech initiative ([www.whro.org/nclb](http://www.whro.org/nclb)), the C.I.I. is proud to announce five "Technology Integration Certificates"-The Interdisciplinary Certificate, The Mathematics Certificate, The Science Certificate, The Social Science Certificate, and The Language Arts Certificate. All C.I.I. member schools recognize these Certificates, and in order to obtain one, a teacher must successfully complete four online courses from selected providers during a three-year period, as described below.

The **Interdisciplinary Certificate** is designed for Elementary School teachers and Special Education teachers. In order to obtain this Certificate, a teacher must successfully complete one online course in each of the four core subject areas: Language Arts, Mathematics, Science, and Social Science over a three-year period. Teachers who are interested in pursuing the **other Certificates** must successfully complete four courses in the specific core subject area, also within a three-year period. Successful completion of a course includes the creation of a technology infused lesson or unit that will be shared with teachers across the region and demonstrated technology usage in daily classroom practice.

Each year, the C.I.I. will offer dozens of qualifying courses in all subject areas and grade levels to help teachers attain these Certificates. What's more, **the courses are FREE.**

Individuals interested in taking any of the online courses are **strongly encouraged to attend one of the hands-on, "Introduction to Online Learning Classes"** being conducted across the region this summer prior to taking their first online class. These classes are also free. Details on page 18.

### Certificates available:

- The Interdisciplinary Certificate
- The Mathematics Certificate
- The Science Certificate
- The Social Science Certificate
- The Language Arts Certificate

### HOW DO I GET THE CERTIFICATES?

#### In order to obtain the Interdisciplinary Certificate:

- a teacher must successfully complete one online course in each of the four core subject areas: Language Arts, Mathematics, Science, and Social Sciences over a three-year period.

#### In order to obtain the Math, Science, Social Sciences, or Language Arts Certificate:

- a teacher must successfully complete four courses in the specific core subject area over a three-year period.

**Successful completion of a course** includes the creation of a technology infused lesson or unit that will be shared with teachers across the region and demonstrated technology usage in daily classroom practice.

**The courses can be found on pages 10-22. Each course lists whether it can be applied to one of the certificates.** Register at [www.whro.org/cii](http://www.whro.org/cii) or complete the worksheet on page 39 to register, unless otherwise noted.
